

**North System Renewal Water Treatment Plant (NSRWTP)  
Design Packages (DP) Request for Proposal (RFP) Informational Sheet**

**DP #1-3 RFP Questions  
Friday, June 3, 2016**

---

**Q: Regarding Consultant Qualifications listed in the RFPs, does experience with retrofits or expansion of existing treatment facilities for W/WWTPs greater than 75 or 100 MGD qualify as applicable experience?**

A: Yes. However, the capacity of the retrofit or expansion must meet the minimum criteria. Re-rating processes to achieve higher capacities and expansions of less than 75 MGD to achieve a total plant capacity greater than 75 or 100 MGD does not qualify.

**Q: Do the minimum Qualifications listed in the RFPs apply to only the Prime consulting firm?**

A: No. The proposed project team as a whole must meet the minimum qualifications and the proposed personnel must meet minimum personnel qualifications.

**Q: Can an individual be proposed for more than one key role?**

A: Yes, as long as the proposed individual meets the minimum qualifications for both roles.
